X	General	S.I.C.A	C.B.S.E	2012	74.2 %	I

Academic Projects

Title : AyurHealth.com

Platform : MS.NET (C#, ASP.NET Core), J2EE, Spring Boot, React.JS, MySQL, SQL server

Duration : 1 Month

Description : Developed AyurHealth.com, a comprehensive e-commerce platform specializing in Ayurvedic products, designed to offer a seamless and responsive user experience across devices. Utilizing ReactJS for the frontend and MS .NET, MySQL for the backend, the platform boasts features like secure user authentication, detailed product management, intuitive shopping cart functionalities, and integrated payment systems ensuring safe transactions. Administrative tools enable efficient management of products and Users, maintaining high-quality standards. To showcase architectural flexibility, a parallel version was crafted using Spring Boot (J2EE) for the backend while retaining the same ReactJS frontend. Enhancements such as support for multilingual content broaden its global reach, and advanced algorithms provide personalized product recommendations to elevate user engagement. This project not only centralizes access to Ayurvedic products but also sets a benchmark for online shopping in its niche.
